<i>Acknowledgments</i> . . . . .	xvii
<i>Foreword by James Paul Gee</i> . . . . .	xix
<i>Introduction</i> . . . . .	xxi
<b>Advertising Campaign</b> . . . . .	1
The students design a full-fledged advertising campaign for an upcoming or newly released video game.	
<b>Alternate History</b> . . . . .	4
The students write an alternate history of the world that starts with a decisive change in the outcome of a historical event.	
<b>Arcade vs. Video Games</b> . . . . .	7
The students compare and contrast the social experience of playing video games in an arcade versus playing them at home on a video game console or PC computer.	
<b>Artistic Rendering</b> . . . . .	9
The students create an artistic representation of a real-world scene.	
<b>Battleship</b> . . . . .	12
The students assemble the materials for a classic game of <i>Battleship</i> , which they then play in pairs.	
<b>Best Kids' Game</b> . . . . .	14
The students rank and review their favorite kid-friendly video games.	
<b>Body Image</b> . . . . .	16
The students discuss the relationship between body image and the physiques of both male and female video game characters.	
<b>Discussion Article: <i>Lara Croft: Tomb Raider Series</i></b> <b>by Ismini Boinodiris Roby</b>	
<b>Book Review</b> . . . . .	20
The students review an academic or instructional book about video games.	

<b>Branding the Box</b> .....	23
The topic of branding is introduced to students who then compare and contrast the packaging of two or more PlayStation 3, Wii, or Xbox 360 titles.	
<b>Bully</b> .....	25
The students discuss the ethical issues surrounding RockStar’s school-based video game titled <i>Bully</i> .	
<b>Discussion Article: <i>Video Games May Dull Shock at Violence</i></b> <b>by Miranda Hitti</b>	
<b>Car Commercial</b> .....	29
The students create a car commercial using in-game footage captured from a driving game.	
<b>Car of the Future</b> .....	31
The students design and outline the specifications for a tricked-out new car (or flying machine) of the future.	
<b>Chart Toppers</b> .....	34
The students track the video game sales charts over a one- or two-month period. They analyze and draw conclusions about the statistics they have collected.	
<b>Cheat Code Central</b> .....	37
The students review a game’s cheat codes. They propose a revised set of cheat codes that would make the game easier and more fun to play for novices and recreational gamers alike.	
<b>Choose Your Own Adventure</b> .....	39
The students write a choose your own adventure story, a narrative with multiple pathways that can then be adapted for use in an adventure video game.	
<b>Composer Discography</b> .....	41
The students research the discography of an established video game composer.	
<b>Critiquing the Controllers</b> .....	43
The students compare and contrast the gamepad controllers that ship with the Microsoft Xbox 360, Nintendo Wii, and Sony PlayStation 3 gaming systems.	
<b>Deadpan Dialog</b> .....	45
The students write a review of a video game focusing solely on the elocution of one or more characters’ dialog.	

**Design Your Own Racetrack** . . . . . 47

The students use arts and crafts supplies to design a racetrack that features five or more geographic landforms.

**Design Your Own Racetrack (Take Two)** . . . . . 49

The students use a city map to design a sanctioned street race through an urban center. They identify road hazards, plot positions where protective barriers should be erected, and mark off cross streets that should be closed to traffic.

**Do You Recognize This Voice?** . . . . . 52

The students play a teaching game in which they listen to recorded excerpts of dialog from several video games. They attempt to guess which celebrity’s voice they are hearing.

**Don’t Believe the Hype** . . . . . 54

The students compare and contrast the previews and reviews of a video game. They look for evidence of hype in the previews for games that didn’t quite fulfill expectations upon their release.

**Discussion Article: *Ethics in Video Game Journalism* by Justin Hall**

**ESRB Ratings Review** . . . . . 59

The students review the ESRB ratings system and suggest what changes (if any) they would propose making.

**Ergonomic Audit** . . . . . 62

The students conduct an ergonomic audit of the school’s computer lab. They present their findings to the student council, principal, and school staff.

**Fact vs. Opinion** . . . . . 64

The students analyze and parse one or more reviews of a video game for statements of fact and opinion.

**Discussion Article: *Reality Bytes: Eight Myths about Video Games Debunked* by Henry Jenkins**

**Fine Motor Count** . . . . . 70

The students tally the number of times one or more gamepad buttons are pressed during a gaming session. They then transfer this data onto a chart for further analysis during math class.

**Fitness Regime** . . . . . 72

The students propose a series of fitness exercises for a leading video game or comic book character.

**Discussion Article: *Exercise, Lose Weight with “Exergaming”* by Star Lawrence**

<b>Foley Effects Artist</b> . . . . .	77
The students become Foley artists as they replace the sound effects in a video game with their own sounds derived from materials they have collected in and around their school and home.	
<b>Foley Effects Artist (Take Two)</b> . . . . .	79
The students add Foley effects to their game creations and video productions.	
<b>Discussion Article: <i>Soaking up the Media: Full-time Job for Kids</i> by Miranda Hitti</b>	
<b>For How Long Do I Play?</b> . . . . .	86
The students track the amount of time they spend playing video games over a two-week period. They then analyze and perform calculations on the data they have gathered.	
<b>Game Invention</b> . . . . .	88
The students design a real-world game or sport that they then teach others to play in a physical education class.	
<b>Gaming Budget</b> . . . . .	90
The students perform a cost-benefit analysis of the practice of buying versus renting video games.	
<b>Gaming Station</b> . . . . .	92
The teacher sets up a PlayStation 3, Wii, or Xbox 360 gaming station in the classroom that is to be used for educational purposes in the instructional program.	
<b>Graphical Analysis</b> . . . . .	94
The students conduct a graphical analysis of a video game. They critique the models, textures, lighting, shadows, and other graphical features of the game.	
<b>Historical Campaign</b> . . . . .	96
The students propose a new mission for an existing World War II or Vietnam-based wargame. They draw their idea from an actual historical campaign or scenario that occurred during the war.	
<b>Historical Place Analysis</b> . . . . .	98
The students compare and contrast historically accurate video game environments with photographs and descriptions of the same real-world settings.	
<b>Discussion Article: <i>The Convention for the Protection of Virtual Architectural Heritage</i> by Mario Gerosa, with the collaboration of Sam Shahrani</b>	

<b>Historical Weaponry</b> . . . . .	103
The students research the history of a weapon that is featured in a World War II or Vietnam-based video game.	
<b>I Beg to Differ</b> . . . . .	105
The students write a response to a negative review of a video game they enjoyed.	
<b>I Believe</b> . . . . .	107
The students write an I Believe poem about video games that comprises ten belief statements.	
<b>Discussion Article: <i>Contradictions</i> by Richard Bartie</b>	
<b>Kid-friendly Grand Theft Auto</b> . . . . .	110
The students take back the streets as they design a vibrant, kid-friendly city in which there are lots of things to do.	
<b>Lay of the Land</b> . . . . .	113
The students create a topographic map of a fictional battlefield that features several of the landforms they have studied in class.	
<b>Map of the World</b> . . . . .	115
The students use a wall map of the world to plot the real-world locations in which their favorite video games are set.	
<b>Music Critic</b> . . . . .	117
The students critique the licensed musical mix that is featured in a video game.	
<b>New Multiplayer Mode</b> . . . . .	119
The students brainstorm new multiplayer modes that comprise sets of gameplay rules and scenarios for a popular online wargame.	
<b>Newscast Production</b> . . . . .	121
The students study the structure of a traditional television newscast. They then apply what they have learned to the creation of a live newscast of their own that reports on the video game news of the day.	
<b>Discussion Article: <i>Why We Need a Corporation for Public Gaming</i> by David Rejeski</b>	
<b>Next Generation Console</b> . . . . .	126
The students pick a name and design a model for a next-generation gaming system. They also brainstorm a list of cutting-edge features that the system will support.	

<b>Open World Directions</b> . . . . .	128
The students write out the directions for getting from Point A to Point B in an open world driving game.	
<b>Playing to Learn</b> . . . . .	130
The students brainstorm and lead their own video game learning activities.	
<b>Poor Posture</b> . . . . .	132
The teacher teaches a lesson on ergonomics in which a student volunteer demonstrates the proper posture for sitting at a computer.	
<b>Race Relations</b> . . . . .	134
The students discuss how different cultural groups are represented in video games.	
<b>Repetitive Stress Injury</b> . . . . .	136
The teacher gives a formal lesson on repetitive stress injury to the class.	
<b>Discussion Article: <i>Protect Kids from Computer Injuries, Safety Council Urges</i> by the Canadian Broadcasting Corporation</b>	
<b>Researching the Credits</b> . . . . .	139
The students research a specific video game–related job and its role in the development of a video game title.	
<b>Researching the Credits (Take Two)</b> . . . . .	141
The students browse the credits for one or more video games as a way of helping them to organize their own in-class game development studio into assigned roles and tasks.	
<b>Review Roundup</b> . . . . .	143
The students compare and contrast two or more reviews of a video game. They write a review roundup that sums up the views of the critics plus their own insights.	
<b>Review of the Real World</b> . . . . .	145
The students turn the notion of a video game review on its head and instead review the real world as if it were a video game.	
<b>Discussion Article: <i>Real Life: The Full Review</i> by Greg Kasavin</b>	
<b>Scary Stories</b> . . . . .	151
The students discuss what makes a story, movie, or video game scary. They then write their own scary story.	

<b>Scooby-Doo and the Laws of Physics</b> . . . . .	153
The students watch a half-hour <i>Scooby-Doo Mysteries</i> episode and count and/or categorize the number of times the characters—both friends and foes—do the impossible.	
<b>Serious Games Brainstorming</b> . . . . .	155
The students brainstorm ideas for a new serious game that teaches the knowledge and skill set required by a particular profession.	
<b>Discussion Article: <i>Video Game Therapy: A New Frontier</i> by Reuters</b>	
<b>Spelling Dictation</b> . . . . .	159
The teacher compiles a spelling list of video game-related terms.	
<b>Statistical Analysis</b> . . . . .	162
The students analyze and discuss a number of video game-related statistics.	
<b>Strategy Guide Review</b> . . . . .	164
The students write and then publish a review of a video game strategy guide.	
<b>Strategy Guide Writing</b> . . . . .	166
The students author their own strategy guides for a full video game or a single mission from a favorite game.	
<b>Study of the Future</b> . . . . .	168
The students write an essay that predicts what our world will look like in the future.	
<b>Discussion Article: <i>Laura's Story</i> by David Hutchison</b>	
<b>Superhero Design</b> . . . . .	172
The students design an original superhero character for a video game.	
<b>Surround Sound Map</b> . . . . .	174
The students go outside and draw a directional sound-field map that plots the location of natural and human-made sounds coming from the front, rear, sides, and overhead.	
<b>Tactical Analysis</b> . . . . .	176
The students write about one or more tactics they have successfully used in a video game.	
<b>Technological Progress</b> . . . . .	178
The students review the graphical features of three video games, respectively published this year, three years ago, and six years ago.	

<b>Television Technologies</b> . . . . .	180
The students research the science behind the four major television technologies: CRT, LCD, DLP, and plasma. They report on the pros and cons of each.	
<b>Test Drive</b> . . . . .	182
The students design a science experiment in which their peers take the cars in a racing game for a test drive. They report on which cars have the best and worst control and handling according to the participants in the study.	
<b>The Gaming PC</b> . . . . .	185
The students design the casing for a custom gaming PC that optionally features a custom paint job, decals, neon lights, tattoos, and other embellishments.	
<b>The Interview</b> . . . . .	187
The students interview their peers about their video game playing habits. They then draw tentative conclusions from the data they have gathered.	
<b>The Obituary</b> . . . . .	189
The students write an obituary that recounts the life of a lead video game character who has died.	
<b>The Pitch</b> . . . . .	191
The students prepare a proposal for a brand-new video game, which they then pitch to the class.	
<b>Discussion Article: <i>Bringing Back the Dream</i> by Noel Llopis</b>	
<b>The Rewrite.</b> . . . . .	194
The students rewrite the dialog for a cutscene in a video game that is in desperate need of improvement.	
<b>The Rewrite (Take Two)</b> . . . . .	195
The students rewrite a video game user review in an effort to improve its clarity and sentence structure.	
<b>The Stunt.</b> . . . . .	197
The students capture some in-game footage of their characters performing insane stunts on foot or in vehicles.	
<b>The Survey</b> . . . . .	199
The students design a video game survey, which they then administer to other students in the school.	

<b>Ultimate Gaming Bundle</b> . . . . .	201
The students design an advertisement for the ultimate gaming bundle, consisting of a PC or console system and third-party hardware and games.	
<b>Urban Planning</b> . . . . .	202
The students choose the location for a new city, which they then design from the ground up.	
<b>User Interface Review</b> . . . . .	204
The students apply the principles of user interface design to their review of a game's user interface, menu system, and/or heads up display (HUD).	
<b>Video Game Addiction</b> . . . . .	207
The students research the topic of video game addiction. They decide on a list of criteria for determining whether someone is addicted to video games.	
<b>Discussion Article: <i>Doctor Claims 40 Percent of World of Warcraft Players are Addicted</i> by Jeremy Reimer</b>	
<b>Video Game Database</b> . . . . .	211
The students design a database for storing information about video games. They pretend they are opening a video game rental store and need to keep track of their inventory.	
<b>Video Game Debate</b> . . . . .	214
The students debate a controversial issue related to video games.	
<b>Discussion Article: <i>Massacre in Winterspring</i> by Gabe Graziani</b>	
<b>Video Game Reenactment</b> . . . . .	217
The students reenact a key scene from a video game that boasts a strong storyline.	
<b>Video Game Review</b> . . . . .	218
The students write a review for a video game they are currently playing.	
<b>Discussion Article: <i>Living in Oblivion</i> by Jane Pinckard</b>	
<b>Virtual Journal</b> . . . . .	222
The students write a series of journal entries that chronicle their virtual life in an online role-playing or open world video game.	
<b>Discussion Article: <i>Are Virtual Worlds the Future of the Classroom?</i> by Stephanie Olsen</b>	

<b>Website Design</b> .....	229
The students brainstorm ideas for a video game website that features content not typically found at existing websites.	
<b>Well-Balanced Diet</b> .....	232
The students propose a set of four video games that provide a desired gameplay balance and variety of play.	
<b>World without Music</b> .....	234
The students reflect on the perceptual experience of playing a video game without music.	
<b>World's Best Gamertag</b> .....	235
The students are challenged to come up with the most creative Gamertag they can think of.	
<i>Afterword: Video Game Design in the Classroom</i> .....	237
<i>Activity List Sorted by Subject</i> .....	243
<i>Index</i> .....	247
